

# MUHAMMAD MUNEEB

AI / ML Engineer | Agentic AI | Workflow Automation

Karachi, Pakistan | +92 320 9287215 | muneebgulfam5@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

## PROFESSIONAL SUMMARY

Results-driven AI / ML Engineer with hands-on experience designing, building, and deploying production-ready AI solutions across agentic workflows, voice automation, predictive analytics, and computer vision. Proficient in Python, TensorFlow, PyTorch, and Scikit-learn, with applied experience in LLMs, the OpenAI API, and Generative AI on GCP, Vertex AI, and AWS. Combines strong machine learning fundamentals with software engineering skills to deliver scalable, intelligent systems that drive measurable business value.

## PROFESSIONAL EXPERIENCE

### Associate AI Engineer · JBS Americas and Europe

Oct 2025 – Present

- Designed and deployed autonomous AI agents for multi-step reasoning and real-world task execution using OpenAI APIs and orchestration frameworks.
- Engineered agentic workflows integrating reasoning, planning, tool use, and external REST API calls to automate end-to-end business processes across global teams.
- Built conversational AI voice agents (Synthflow) for inbound lead qualification, appointment scheduling, and CRM pipeline automation via GoHighLevel.
- Constructed automated lead-generation and scraping pipelines using n8n, Apify, Clay, and Instantly — replacing fragmented manual workflows with a single autonomous system.
- Developed ML models for predictive analytics and automated lead-scoring; conducted model performance evaluations to ensure production reliability.

### Agentic AI Engineer · LA Consulting (Pvt) Limited

May 2025 – Oct 2025

- Built autonomous AI agents capable of complex decision-making, multi-step reasoning, and task execution using OpenAI APIs and agentic orchestration frameworks.
- Deployed conversational and voice-based AI agents for lead generation, customer engagement, and end-to-end CRM automation integrated with GoHighLevel.
- Developed an AI Business Analyzer tool that scrapes corporate websites, audits SEO and competitor positioning, generates AI-driven strategies, and produces marketing video content via a Generative AI module.
- Performed rigorous testing, debugging, and behavioral evaluation of AI agents to ensure consistent reliability and safety in production environments.

### HR Analytics Officer · Tabros Pharmaceuticals

Dec 2024 – May 2025

- Analyzed operational and HR datasets in Excel and Power BI; built dynamic KPI dashboards in Tableau for executive leadership reporting.
- Conducted statistical analysis of workforce data and delivered evidence-based recommendations informing HR policy and workforce planning.

### AI & ML Trainee · Samsung Innovation Campus

Oct 2024 – Dec 2024

- Built and trained ML models using Scikit-learn, TensorFlow, and PyTorch across classification, regression, and computer vision tasks.
- Gained hands-on experience with Vertex AI, OpenAI API, and end-to-end model deployment on GCP alongside deep learning coursework.

### Data Analyst Intern · Internn Craft

Apr 2024 – Jul 2024

- Analyzed structured business datasets using Python and SQL; developed interactive Tableau visualizations to support business insights and faster decision-making.

## KEY PROJECTS

---

Full project details, demos, and case studies available at <https://portfolio-website-rho-one-74.vercel.app/>

**AI Voice Agent — CRM Automation**   *Synthflow · GoHighLevel · OpenAI API*

Deployed a conversational AI voice agent handling natural-language customer calls with automated post-call lead qualification, CRM pipeline management, and appointment scheduling.

**Automated Job & Lead Scraper — End-to-End Pipeline**   *n8n · Apify · Clay · Instantly*

Engineered an autonomous recruitment and lead-generation pipeline — LinkedIn scraping via Apify, data enrichment via Clay, and personalized cold-email outreach via Instantly, orchestrated end-to-end in n8n.

**AI Business Analyzer & Generative Content Tool**   *OpenAI API · Web Scraping · Generative AI*

Built a business-intelligence tool that audits corporate websites for SEO, services, and competitor positioning, then generates AI-driven improvement strategies and tailored marketing video content.

## TECHNICAL SKILLS

---

**Programming & Tools:** Python, SQL, C++, Git, GitHub, Jupyter Notebook, REST APIs

**ML & Deep Learning:** TensorFlow, PyTorch, Keras, Scikit-learn, OpenCV, CNNs, Computer Vision, Predictive Modeling

**Generative AI & LLMs:** OpenAI API, LLMs, Prompt Engineering, NLP, Conversational AI, Generative AI

**Agentic AI & Automation:** Agentic AI, AI Agents, Autonomous Workflows, n8n, Synthflow, GoHighLevel (GHL), Apify, Clay, Instantly, Web Scraping, CRM Automation

**Cloud & Deployment:** GCP, Vertex AI, AWS, AWS EC2, Model Deployment, API Integration

**Data & Analytics:** Tableau, Power BI, Microsoft Excel, Matplotlib, Seaborn, KPI Dashboards, Statistical Analysis

## EDUCATION

---

**Bachelor of Science in Computer Science**

DHA Suffa University, Karachi, Pakistan

*Graduated Mar 2024*

## CERTIFICATIONS

---

- Google Data Analytics Professional Certificate — Google
- Samsung AI and Data Science Certification — Samsung Innovation Campus
- Microsoft Azure AI Fundamentals (AI-900) — Microsoft
- Google Analytics (GA4) Certification — Google
